These tutorials are not for everyone

Hoop Scarf

finnyknits.com

Cast on 41 stitches with a #6 10" circular needle and the first color yarn.

Join (without twisting stitches) by passing the last stitch over the first cast on stitch.

Knit in the round until the scarf is 1/4 as long as the final product. Change to the second color yarn and knit in the round until it is 3/4 as long as the final product. Switch back to the first color yarn and knit until the scarf can be wrapped snugly around your neck twice.

Cast off.

Using a mattress stitch, stitch together the ends as a tube. This way it will be an open tube, rather than a seam where the two ends join.

To wear:

Hang around your neck like a giant necklace.

Twist once and pull that new loop over your head, pulling snug at the neck.

Twist once more and pull that new loop over your head. Arrange the scarf's layers in whatever way you see fit.
